Directing Team Notes

Welcome to Middle School SPA 2021! Middle School SPA focuses on the process of teaching performing arts skills rather than the formal, final product, and the program we are presenting tonight is not a high-pressure, full-length production. Rather, this variety-show style performance of songs, dances, and drama scenes you will see tonight are an example of the performing arts education the students have received during the past three weeks. As a staff, we are very proud of the progress these students have made. We hope you enjoy this small glimpse into the techniques they've learned and the fun the students and staff have had together. Thank you for supporting these young performers. We hope you enjoy what they have prepared for you!
