Music:	The Body Electric

Directing Team Notes

Welcome to Middle School SPA 2026! Middle School SPA is all about the process of learning performing arts skills, rather than just the final product. What you are about to see tonight is not a high-pressure, full-length production. Instead, it is a variety-style showcase featuring songs, dances, and drama scenes that highlight the foundational training our students have received over the past 12 days. As a staff, we are incredibly proud of the immense progress they have made. This performance offers a glimpse into the techniques they have been mastering—and the immense fun we've all had together along the way.

We also want to extend a massive thank you to the SPA tech team. Due to construction at South Middle School, we relocated to Red River High School this summer. This meant holding our middle school program right on top of the tech team while they worked feverishly on the high school shows. They have been incredibly gracious about letting us share their space, and they even jumped in to perform with the middle school kids a few times. Thank you, Tech Team!

Thank you all for supporting these young performers. We hope you enjoy the wonderful showcase they have prepared for you!

Special Thanks

Parents/Guardians of MS SPA students, Red River High School Administration, South Middle School Administration, Office, and Custodial Staff, SPA Tech, Office, and Costume Staff, Families of MS SPA staff, GFPS Print Shop.
